Professional Summary

Backend Software Engineer with 6+ years of experience building secure, high-performance government systems in Bangladesh with PHP (Laravel, CakePHP), Java (Spring Boot) and Oracle/MySQL. Currently developing BRTA's MVTax revenue system and DAE Phyto-Sanitary Phase 2, with a track record of 30% faster performance and 50% faster deployments.

Professional Experience

Software Engineer II, *Synesis IT PLC.* Sep 2021 – Present | Dhaka, Bangladesh
Career progression: Implementation Engineer (contract from Oct 2020) > Junior Programmer > Programmer > Software Engineer I > Software Engineer II

- Built the complete New Vehicle module of BRTA's MVTax revenue system as a REST API end-to-end in 2 months (PHP, Laravel, Oracle); ready for go-live.
- Building Spring Boot backend for DAE Phyto-Sanitary Phase 2: anchorage permits, fee calculation and product setup.
- Main programmer of the DAE Phyto-Sanitary system (~90% of development): e-flow automation, online challan, malware scanner and PDF certificate signer.
- Built DAE's Contract Farming & Traceability system from scratch (Laravel, Angular, MariaDB); delivered CCI&E licence renewal and JBC revenue reporting (Spring Boot, Oracle).
- Built certificate-based encrypted data exchange across 3 government platforms, meeting 100% of compliance requirements.
- Improved query performance by up to 30%, cut API errors by 35% and made deployments across 6+ Linux servers 50% faster.
